

Congressman Rothman Meets with More Than 300 Saddle Brook Students

On April 13, 2010, Congressman Steve Rothman (NJ-09) visited the Saddle Brook Middle School and discussed the role of government with more than 300 students. The students engaged in a vigorous dialogue on a variety of topics including education, the 2010 census, foreign affairs and the \$1.2 million in federal monies he obtained for the Army Corps of Engineers to complete its study of how to fix the flooding associated with the Lower Saddle River. He also encouraged students to become involved and active in their communities.
