Washington, DC – On January 19, 2010, leaders of the local chapter of the United Automobile, Aerospace & Agricultural Implement Workers of America (UAW) thanked Congressman Steve Rothman (D-NJ) for being a fighter for the American worker. Congressman Rothman has a strong record of supporting legislation which would strengthen workers’ rights, support equality in the workplace, raise the minimum wage, increase retirement security, extend emergency unemployment benefits, and provide states with funding to save hundreds of thousands of critical American

jobs.
