Washington, DC – Congressman Steve Rothman (D-NJ), who served as a member of Congresswoman Gabrielle Giffords's House Science and Technology Subcommittee on Space and Aeronautics, from 2007 to 2011, released the following statement:

It has been an honor and a privilege to have served in the U.S. House of Representatives with my dear friend, Congresswoman Gabrielle Giffords. She is brilliant, charming, and a great leader who is the model of what it means to be a public servant.

My thoughts remain with her, her husband Mark, and their entire family as they continue to courageously recover from the horrific attack that happened just over a year ago.

I continue to hope and pray for her full and speedy recovery, and that someday she returns to what she loves most, serving the public as their elected representative.
