Washington, DC &ndash; On February 1, 2012, representatives of the Communications Workers of America met with Congressman Steve Rothman (D-NJ) in his Washington, DC office to thank him for helping lead the fight for worker&rsquo;s rights and strong unions throughout his career. In particular they thanked Congressman Rothman for cosponsoring their top legislative priority, the United States Call Center Worker and Consumer Protection Act, which would discourage companies from shipping American call center jobs overseas and endangering confidential personal information.
