### Congressman Rothman Leads Discussion with Seniors in Bergen County

January 9, 2006— At Cliffside Park Senior Activity Center, residents told Steve that the President's Prescription Drug Plan is too complicated and not working for them.

Steve explained to those with concerns, such as 85-year-old retired teacher Sidney Schwarzwald (pictured), that he voted against that plan and instead supported a measure to offer a real benefit that would have expanded Medicare and eliminated coverage gaps.

All those with questions should feel free to contact his District Office at (201) 646-0808 for assistance understanding the new changes.
