Joint  
Action Committee Thanks Congressman Rothman for His Support of a Resolution Condemning  
the Ongoing Palestinian Rocket Attacks on Israeli Civilians

(Washington,  
DC)-On Tuesday, March 4, 2008, the Joint Action Committee thanked Congressman  
Steve Rothman (D-NJ) for co-sponsoring H.Res. 951, a resolution condemning the  
ongoing Palestinian rocket attacks on Israeli civilians. The next day, Rothman  
voted for the Resolution on the floor of the House of Representatives, where it  
passed by an overwhelming margin of 404 to 1.

In  
describing his support for the Resolution to the New Jersey Jewish Standard  
in February, Rothman said: "It is always appropriate to condemn terrorism,  
especially against America's closest and most strategic ally in the Middle East,  
the Jewish State of Israel. But it is especially timely and necessary when the  
U.N. Security Council has recently debated whether to condemn Israel for defending  
itself against the rocket attacks coming from Gaza."

The  
Joint  
Action Committee is an advocacy group that promotes the United States-Israel  
relationship, separation of religion and state, reproductive freedom and social  
policies that are a priority of the American Jewish community, including the maintenance  
of strong social services. To promote this agenda, Joint Action Committee enlists  
Jewish community participation in advocacy with elected officials.
